### **DETAILED ACTION**

The following action is in response to application 10/643,165 filed on August 19, 2003.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Stephen Adrian on September 2, 2004.

The application has been amended as follows:

In the Abstract (page 12 of the specification):

on lines 8-11, the sentence beginning with "A difference between" and ending with "travel of the vehicle" has been removed.

In the Specification:

on page 4, lines 5-6, "in addition ... claim 1," has been removed.

***Allowable Subject Matter***

Claims 1-2 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the power transmission system in a vehicle as claimed, and particularly including a multistage-gear path provided in parallel with a continuously variable gear path, wherein the multi-stage gear path is set at a gear ratio closer to a LOW side from that of the continuously variable gear mechanism, and including the remaining structure of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Lee, Kanda, Eguchi, Haka, and Parraga have been cited to show similar transmissions.
